Our last full price list was published in Spring 2016 and since then I regret that there have been many changes in the outlook for all businesses in the U.K. We face the possibility of increased red tape with regard to overseas orders and harder trading conditions at home. The immediate effect of this was the increase of 50% in our metal bill since the 2016 list appeared (our normal metal supplier moved his whole business to Germany shortly after the Brexit vote). You will appreciate that we cannot absorb such a large price rise by ourselves and must regrettably pass some of it on in the way of price rises – the first since Summer 2013.

As always one heartfelt plea – **Please remember to add your address to all orders.** I have a large pile of orders that I am unable to fulfil simply due to a lack of an address. We rarely hear from the customer chasing up orders. Possibly they assume that we no longer exist? However we heard of a customer who took to an Internet forum complaining of the time taken to receive his order. He had given me no address! Several customers then explained to the forum that I usually send orders out on the day of receipt. He then contacted me and apologised for omitting his address, and the order was sent out by return.

Please excuse the rant, and thank you for your custom.

# NAVWAR 1:3000th scale WARSHIPS AND MERCHANT SHIPS

NAVWAR 1:3000th ships are fine metal castings which can easily be painted using ordinary enamel paints. Each packet contains either one model or the number shown after the ships name, and is supplied with a data sheet.

GENERAL QUARTERS 1 Rules are ideal for wargaming with these ranges for W.W. 2, and GENERAL QUARTERS 2 rules cover W.W.1, whilst STEAM and STEEL are the set for the Pre-Dreadnought era. Modern naval combat is covered by Warship Commander Rules. All of these rules are listed on page 1.

The headings for the ships listed in this catalogue contain the following information:-

“Number” is Navwar’s identification number for that model or pack.

“Class” relates to number of ships built in class to the design of the model + number of vessels planned or projected.

“Date” refers to the date the vessel was built (or planned) to the design depicted by the model..

Each pack contains one ship unless shown otherwise.

The “price” is per pack.

An asterisk (\*) after the ships name indicates that separate sails are included.

*Names printed in italics relate to ships that are sister ships of vessels built by another nation or which have been transferred or acquired and which are also listed under the original nation. The listing of these ships under the second nation is for information only.*

e.g. *N285 Drummond* shown under Argentina relates to the French frigate N285 D'ESTIENNE D'ORVES. The model does not differ and the information included with the model relates to its country of origin.

e.g.

NUMBER	NAME	CLASS	DATE	PRICE
N1503	LATER BATTLE x 2	8+16	1945	£1.35

Hence pack no N1503 contains two Later Battle class destroyers and costs £1.35. There were 8 vessels built to this design plus 16 planned and the first vessels were available in 1945.

## WOODEN WALLS

Our range of 1/1200th scale sailing ships includes Chinese Junks, as well as ships of the Elizabethan era, American War of Independence, Seven Years War, War of the Spanish Succession, all three of the Dutch Wars, and the Napoleonic Period. It should be remembered that precise details of ships become more difficult to obtain the earlier we go back. Few 18<sup>th</sup> Century vessels, nominally in the same class, were built to exactly the same plans, and with refits and rebuilds, vessels which started out as near sisters, could often end their lives looking very different. This is even more true for the Tudor era where scholars continue to argue about details of individual ships. Paintings of ships of the period are often described as different vessels by different authors. We continue to choose models that are typical of a particular class or type at a particular date, rather than provide ranges of near identical half sisters. The division of the range into "Napoleonic and American Independence", "Dutch Wars to Seven Years War" and "Armada" is purely arbitrary. Vessels from either side of the "divide" may be used together.
